In an independent test, some independent men shaved one side of their face with a platinum or chromium blade. They shaved the other side with our Tripleheader 35T shaver. When they finished shaving, we had them feel their faces. 7 out of 10 said our Tripleheader shaved them as close or closer than either the platinum or chromium blade. Some of the men were surprised. But, frankly, we weren't. Because the Norelco Tripleheader is a totally different kind of electric shaver.

We won.

In a test, Norelco and other electric shavers were compared. Our blades are rotary. So they shave in every direction. (Because your beard grows in every direction.) And we make our shaving heads ultra-thin. So it's possible to get a really close shave. And practically impossible to nick or cut yourself. The Tripleheader comes in a Cord and a Rechargeable model. Either way, you can't lose.
