MIT engineers save Apollo landing effort

(Continued from page 1) the moon landing without a hitch.

On the moon

NASA experts may never discover exactly what mechanical breakdown prompted the repeated shorts, since the landing structure stays on the moon after the command module returns to earth.

Eyles is a computer expert who designed the program for the on-board computer of the Apollo mission. He had Friday night to work with engineers from Cambridge Parkway — on duty because the engineers who worked on the mission stand by in a classified advertising

Messianic Jews. Offer free Bible literature courtesy of messianic beliefs. Write: SCRIPTURES Dept. C-14, 153 Prospect Drive, Stanford, Conn. 06907.

Twisted pair? Heavy gauge, shielded and jacketed, Two .050 sq. mls. at $15 each or both for $25. Perfect for signaling, high or low level audio work. Refer to Lesme for details.

Interested in playing chamber music or multi-lingual singing? Write CHAM-BER CHORUS, 275 Massachusetts Avenue, Box 165, Cambridge, Mass. 02138.

Summer in Europe 1979: Boeing 707 Jet 6/7 - 8/31 NY/London $695 8/27 NY/London. Price on request. Open only to students and staff of MIT and their immediate families. Call Cambridge Student Flights 664-4047 EVENING.

To Larry from WRTB — Thanks for the ride last Tuesday night. We really appreciated it.

Presidential criteria:

PREAMBLE

The Corporation Joint Advisory Committee on Institute-Wide Affairs (CJAC) respectfully submits the following criteria for consideration in the selection of the next president of MIT. CJAC believes that the next president of MIT preferably should come from a science or engineering background, but that the candidate need not have had previous association with MIT. CJAC further believes that the age of the candidate should be no more than 55 years of age, that the candidate should be capable of managing a large complex organization, which will maintain the respect of the community.

PERSONAL QUALITIES

A-1. The candidate should be a person of distinguished achievement. If he has not been associated with academic institutions, the candidate should have had recent contact with the academic community.

A-2. The candidate must have great sense of judgment.

A-3. The candidate must have been able to make tough decisions in the allocation of resources in a manner that will maintain the respect of the community.

A-4. The candidate should have high sensitivity to the neutrality of the community.

X-5. The candidate must have demonstrated the ability and willingness to work under the short and long term, while still maintaining (maintained) the neutrality of the community.

A-6. The candidate should have a broad outlook.

A-7. The candidate should have a sense of humor.

A-8. The candidate should have demonstrated the ability and willingness to delegate authority to others and to evaluate their work.

A-9. The candidate must have the ability to delegate authority to others and to evaluate their work.

A-10. The candidate must have the ability to delegate authority to others and to evaluate their work.

A-11. The candidate should be a person of distinguished achievement.

A-12. The candidate must have been able to make tough decisions in the allocation of resources in a manner that will maintain the respect of the community.

A-13. The candidate must have demonstrated the ability and willingness to work under the short and long term, while still maintaining (maintained) the neutrality of the community.

A-14. The candidate must have a high sensitivity to the problems of the MIT community and recognize their relationship to the problems of the public community.

A-15. The candidate must be able to seek out and respect divergent points of view, and must also be able to make members of the community aware of these divergent views.

A-16. The candidate must be capable of demonstrating the financial problems facing MIT.

A-17. The candidate must be able to make tough decisions in the allocation of resources in a manner that will maintain the respect of the community.

A-18. The candidate should have high sensitivity to the neutrality of the community.

A-19. The candidate should have demonstrated the ability and willingness to work under the short and long term, while still maintaining (maintained) the neutrality of the community.

A-20. The candidate must have the ability to delegate authority to others and to evaluate their work.

Public relations

C-1. The candidate must be able to relate to the outside community and to project a positive image of MIT.

C-2. The candidate must have a willingness to take positions on social and political issues, while maintaining sensitivity to the neutrality of the community.

C-3. The candidate should have participated in public affairs.

Administrative role

D-1. The candidate should be effective with awesome of funding (federal, private, corporate, institutional) and must have the ability to develop statutes in accordance with these relationships.

D-2. The candidate should have administrative capability, QED.

5 Year Renewable Term Savings Bank Life Insurance

Based on current dividend rates, these are the annual net payments for 5 years if purchased at age 25. If purchased at earlier age, payments are less.

Draft extension to end undergrad deferments

The Director of the Selective Service System, Dr. Tarr, recently characterized President Nixon's proposed draft reforms as "the steps likeliest to achieve real and rapid change in the Selective Service system." Support by the Selective Service for the proposed reforms was demonstrated by a message to Congress requesting a two-year extension of the draft. Passage of this bill will be the abolition of undergraduate student deferments and a uniform national call. If Congress approves Nixon's proposed reforms, no new B-5 deferments will be granted to entering college students, and deferments granted to undergraduates who entered after April 30, 1971 would be cancelled. Students enrolled in full-time programs prior to that date would retain their deferments as long as they continue to meet the current requirements for deferment eligibility.
