NU, Harvard sweep crews

In the early part of the race, Northeastern surprised everyone by taking 3rd Friday at 40. With 500m gone, 1/4 length down, they were open water back of Harvard at the bowhouse. For the last 500m they sprinted to 35, matching Harvard and moving on them, but not enough. They lost by a length and a deck. Dartmouth also rowed, but was never in contention.

The 130 second varsity race was a humiliation, as both Harvard's second and third varsity beat the freshmen.

This Saturday MIT crews will face even more strong opposition. The breaves race Harvard and Princeton at home for the Compton Cup. Neither of these crews is a pushover and the big first boat will have another chance to demonstrate its improvement. The lights travel to Ithaca to defend the Geiger Cup. Neither of these varsities beat the Techmen.
