designated degree
By Robert Nilsson
MIT has given birth to a new
degree program leading to an
designated Bachelor of Sci-
ence diploma. The new program is
titled the Interdisciplinary Science Pro-
ISP, or Course XXV). The course is intended for students
ishing bearing for field study in a department that has no degree
Although this is the first year for Course XXV, the program is
new. Since 1968, Course
was an experimental ver-
ion of ISP sponsored by the

Wadleigh explains position
By Paul Schindler
Wadleigh, acting as MIT's "as-
situte representative" at disci-
line, took a stand in last spring's ROTC occupa-
tion, has issued a statement out-
lining certain positions taken by the
mit administration in the case.
In his statement, Wadleigh asserted that "in filing these
charges, Mr. Wynne [John Wynne, MIT Vice-President for
Administration and Personnel] and I have not attempted to
state the cases.
rather than attempting to
exercise this form of judicial

Wadleigh did observe that
separation of the three current
cases (Mermelstein, Tomish, and Wolman) from the other
fendants was a decision of the
aculty-student Disciplinary Committee, not of the MIT
administration. For the reason,

Wadleigh said, he would prefer
not to speculate upon the com-
mittee's action. The defendants
and their supporters maintain,
though, that the previous expul-
sion of the three for occupying
President Howard TRELEASE's
ce in January, 1970 was partly
responsible for the decision to
separate the cases.
However, when asked if Mer-
melstein and Tomish were being
singled out by the administra-
tion as leaders of the ROTC
occupation, Wadleigh repeatedly
refused to comment. "I am not
on trial," he said. He suggested
that The Tech seek his state-
ment.
Wadleigh, formerly Dean of
Student Affairs from 1961 to
1969, claimed that it would be
"improper" to comment in ad-
ance on the evidence to be
offered in later hearings. This
would be tantamount, he said,
to "trying this case in the press."
He did say that there had been
no "coaching" of administration
officials, and that their recollec-
tions of times, places, and facts
had such precision because many
of them "took notes" at the
time.
Wadleigh's statement noted
that "not all observers of this
event were asked to help identi-
cate unauthorized participants."
There were authorised partici-
pants, as reported in The Tech,
including students who were
asked to observe. They were
allowed to not identify occu-
pants, "within reasonable . . . for
whatever reason." The statement
adds that a "misidentification of
witnesses was required" before
charges were filed, and that no
charge will be filed now in the
future against people who
served as witnesses in either
courtroom or Disciplinary Committee
hearings, but who have not been
previously identified as partici-
pants in the occupation.
An announcement includes an
apparently definitive state-
ment on damage done by the

and Personnel, listens to testimony at the Disciplinary Committee
hearing.
ROTC occupation. The Tech quoted
special issue merely stated that
there was no visible sign of
major damage. Wadleigh's writ-
teen statement to the Disciplinary Committee included this para-
