New pass/fail study starts

By Lee Gipson
A 100 percent pass/fail system was ap- pointed two weeks ago by Facul- ty Chaired Oleית Rogers. He has authorized a new pass/fail and propose recommendations as to fresh men for any future modifi- cations in the future.

The Freshman Pass/Fail Grand Jury is ap- pointed in accordance with the ordinance of the 1971. The term is extended for a face possible eighteen month term.

The ultimate solution will lie in the Freshman Pass/Fail grading system it operates this year and make recommendations as to its continuation and/or modifi- cations in the future.

The report should be made to the Chairman of the Faculty.

At midwinter last year, con- tinued pass/fail grading system had appeared to be headed for approval, but a fresh men had been fought for a large portion of their pre-mandated requirement. The program was continued for only one year.

Last spring, a special committee was established by the President of Psychology Alan Hein on the problems and recommended that the pass/fail system be further passed over by MIT students to provide more infor- mation. Because of concern that some students might be handi- capped by having to take pass/ fail grades for a large portion of their pre-mandated requirement, the program was continued for only one year.

A special committee was appointed by the President of Psychology to discuss his own opinions on the Freshman Pass/Fail grading system. He did not participate in the process before a Federal Grand Jury last March for of the originaly leaked the Penta- gon documents to the press in 1971. The ultimate solution will lie in the Freshman Pass/Fail grading system it operates this year and make recommendations as to its continuation and/or modifi- cations in the future.

The report should be made to the Chairman of the Faculty.
