Changes proposed for dining options

There are on campus employees, over the compulsory club plans fee, even though this would eliminate the present dining hall fees. Browning pointed out, in conclusion, that the final decision regarding committee options would be left up to the house.

In other dining service matters, most of the house representatives on the committee wanted to see an end to the present dining hall fees, which are a combination of a fee for the privilege of going off campus, a common subsidy, and a charge for having a dining hall in the house. The group is also faced with deciding on an acceptable increase in price of common next year, in light of higher food costs.

The committee hopes to have its final report early for presentation to the Corporation Council by the middle of May. Any suggestions or comments are always welcome.
