Course III drawback: "Damn 8-unit courses" (Continued from page 1)

After much criticism within the department, a near complete reorganization of the undergraduate curriculum developed over the summer by a group consisting of both professors and students. "Courses tended to be not very well conditioned and the labs were disorganized," says Professor Russell. After the re-vamping occurred, however, these faults were corrected; in addition, requirements were changed and research opportunities and facilities were enhanced.

The MIT student's main introduction to Course III comes through the prerequisite 3.091, Programming and Biology, which is offered as an alternative to the Chemistry/Biology requirement. 3.091 offers the student entirely new material, the chemistry of solids. As a course introduction, 3.091 serves the purpose excellently by covering a broad range of topics to introduce the student to the previously unknown chemistry of solids, the foundations of metallurgy and material science.

Those students who graduate with the Bachelor of Science degree have many opportunities open to them, often including acceptance to the Graduate School. These students go directly from the S.B. to their Ph.D. degree. Other students have been known to go into private industry and governmental service.

If a steady salary of $400 a month and paid-up tuition will help you continue your professional training, the scholarships just made possible by the Uniformed Services Health Professions Revitalization Act of 1972 deserve your close attention. Because if you are now in a medical, osteopathic, dental, veterinary, podiatric, or optometry school, or are working toward a Ph.D. in Clinical Psychology, you may qualify. We would like it easy for you to complete your studies. You're commissioned as an officer as soon as you enter the program, but remain in student status until graduation. And, during each year you will be on active duty (with extra pay) for 45 days. Naturally, if your academic schedule requires that you remain on campus, you stay on campus -and still receive your active duty pay. Active duty requirements are fair. Basically, you serve one year as a commissioned officer for your first year, you participate in the program, with a two year minimum. You may apply for a scholarship with either the Army, Navy or Air Force, and know that upon entering active duty you'll have rank and duties in keeping with your professional training. The life's work you've chosen yourself requires long, hard, expensive training. Now we are in a position to give you some help.
