**NOTES**

- The Student Committee on Educational Policy and Educational Division Student Committee presents: Bernard Kaplan, University Professor from MIT, who will discuss "Teaching and Learning in Higher Education: Implications of the Apollo 11 Lunar Material" on May 15 at 11 pm in W-151.

- The first two programs in the ABC-TV series, "What About Tomorrow?" will be shown continuously on Wednesday and Thursday, May 16 and 17 in Rice Room 7-702 from 11 am to 1 pm. The second of the two programs will be shown continuously on Wednesday, May 16 in the Bush Room, noon to 1 pm. This broadcast originated on February 10.

- There will be a joint MIT-BU Graduate Student Symposium in the BU-West Campus. Further information can be obtained from Roland Jandura, 72-3752.

- The Technology Nursery School is now enrolling 3-4 year old children of MIT families for its 1973 summer session. There will be a six-week, 9 am to 12 noon program beginning on both dates; a child may attend five days (Monday, Wednesday, Thursday, Friday, or Tuesday) or two days (Thursday, Friday). The nursery school is cooperative; parents will be expected to participate, a 7-10:30 am program at Eastgate and 1-3 pm program at the Student Center. Take off your dept.

- The question centered about whom they should sign with. The history shows that there are no contracts available to the SCC. When B.F.W. Enterprises Inc., they invited him to make a presentation to the community.
