Police Blotter

Police Blotter is a compilation of reports covering the MIT campus and its surrounding area. It is compiled by Campus Patrol to keep the community informed of recent events.

9/7/73
2 pm: Patrol arrives at all units resulted in locating missing six-year-old girl. Subject found with child detained as result of complaint.

9/8/73
1 pm: Patrol checks on student removing remote computer terminal from a former vehicle. Department involved indicates unit removed without authority.

1 pm: Patrol dispatched to Bay State Road, Boston, fraternity house regarding six intruders attempting to gain entrance. Subjects dispersed then returned again. Two patrolmen stationed at scene until 3 am as precaution.

9/10/73
Report of male subject in ladies room in basement of Student Center. Female effected his presence.

NOTES

Open House sponsored by the Undergraduate Association for freshmen and any other interested undergraduates. Wednesday, Matinae Lunches, Student Center, 4:30-6pm. Refreshments served. Attending will be members of all branches of the UA to talk about each aspect of our program.

Nominations will soon start for all those persons interested in Student-Faculty Committees and all of the functionally appointed committees. The interests of the committees range through Educational Policy, Academic Performance, Curriculum, Laboratory and Library policy, grants, and The Coop. If you are at all interested in becoming a member of a committee, ask for more information at Room 403 of the Student Center or call x3-3469.

Beat the numbers...

The world's first calculators that challenge ordinary calculators and fit into your pocket.

Are you spending too much time solving problems the old-fashioned way—with slide rule, ordinary calculator or paper and pencil? Solve problems in seconds, with one of the same calculators used by professionals in your field—the HP-35 Scientific Pocket Calculator, the HP-45 Advanced Scientific Pocket Calculator, or the HP-80 Business Pocket Calculator. Hewlett-Packard calculators give you more power, more accuracy, more storage registers and more features than ordinary calculators. For example, the HP-35 gives you up to 10 digit accuracy, a floating decimal point, and a range of 200 decades (10^{-99} to 10^{99}). The HP-45 also gives you automatic conversions, offers you a choice of fixed or scientific notation, and performs register and vector arithmetic. And the HP-80 is pre-programmed with 3 dozen financial functions.
