Saltzman to lecture on Warren Report veracity

By Paul Schidler

“Given the large number of open-minded, thinking rational people, We'll both look at what happened in Dealey Plaza when Kennedy was shot. At the very least, the person will go away with some unanswered questions,” according to Robert Saltzman, 26.

Saltzman is a Computer Systems Designer at the General Electric Research and Development facility by day. On his own time, he works with the Committee to Investigate Assassinations, a group based in Washington, D.C. He serves as a special consultant to the Committee on application of computers.

Monday night, at 7:30pm in Kings Auditorium, Saltzman will speak on the topic “The Warren Report: Fact or Fiction.” The topic is not the one he once planned to speak on, “The Assassination of JFK and the Warren Gate Situation and the Warren Report: Fact or Fiction.” The topic is not the one he once planned to speak on, “The Assassination of JFK and the Warren Gate Situation and the Warren Report: Fact or Fiction.” The topic is not the one he once planned to speak on, “The Assassination of JFK and the Warren Gate Situation and the Warren Report: Fact or Fiction.” The topic is not the one he once planned to speak on, “The Assassination of JFK and the Warren Gate Situation and the Warren Report: Fact or Fiction.”

In essence, there are strong similarities between the Warren Gate situation and the Warren Report,” Saltzman told The Tech in a recent telephone interview. “I will show in my lecture many more than that at my lecture.”

Saltzman says his biggest problem is that he has too much material to present verbally, so he will only be able to hit the highlights of the evidence. If you count frames of film, over 25,000 individual pictures were taken. The Warren Commission only looked at 26 of them. I will show many more than that at my lecture.”

Saltzman's presentation, he says, is the numerous photographs the Committee has collected. There are 500 units of photographic evidence. If you count the frames of film, over 25,000 individual pictures were taken. The Warren Commission only looked at 26 of them. I will show many more than that at my lecture.”

Within his experience, most people that have seen his presentation become “deeply troubled about the Warren Commission findings, leading them to believe that there was more than one assassin, and that Lee Harvey Oswald was not one of them.”

MED SCHOOL ADMISSION PROBLEMS?

Euromed may offer all the overseas training,

For the session starting Fall, 1974, Euromed will assist qualified American students in gaining admission to recognized overseas medical schools.

And that's just the beginning. Since the language barrier constitutes the preponderate difficulty in succeeding at a foreign school, the Euromed program includes an intensive 12 week medical and conversational language course, remedial for all students. Five hours daily, 5 days per week (12-16 weeks) make the course a reality for students anywhere in the country where the student will attend a foreign medical school.

In addition, Euromed provides students with a 12 week orientation program, with longer student stays at the request of the school.

For application and further information, phone toll free, (800) 645-1324 or write, Euromed, Ltd., 170 Old Country Road Mineola, N.Y. 11501.
