You're serious about photography. So is the Canon F-1

To you, photography is more than a hobby. You may never want to become a professional. Yet, your photography is as important as self-expression to you as your speech. You demand the same excellence in your photographic equipment as you do of your photographic skills.

The Canon F-1 is the camera that can fulfill any photographic task to your ability in any situation. To you, photography is really all about your photographic skills.
