Presidency debate scheduled at MIT

By Roger Copeland
The MIT Debate Society will host the seventh annual MIT invitational Debate Tournament being held this weekend, Oct. 4-6.

Some 50 two-person teams from about 25 colleges and universities across the US will debate the topic: "Resolved: That the Power of the President Should Be Significantly Curbled." Each team will speak for the resolution in four rounds and against the resolution in four rounds of the eight rounds of preliminary competition on Friday and Saturday.

The sixteen teams which qualify for the four elimination rounds to be held Sunday in the Kresge Auditorium will receive awards. The winning team will be chosen following the elimination rounds by a panel of judges which will include coaches from the 25 schools represented and some outside experts.

The preliminary rounds, to be held in MIT Buildings 1,3,4,5, and 7, and the elimination rounds in the Little Theater, will be open to the public.

According to Jack K. Segal '76, president of the MIT Debate Society, many outstanding inter-collegiate debaters, some from as far away as California and Texas, are entered in the tournament, the first major forensics competition on this year's college debate circuit, Past winners have included the cells at your option.

You can pay more for a scientific calculator.

But you can't get a better calculator value than the Spectrum SP-70.

- Double parenthesis capability
- Scientific notation
- 8 data registers with Poly-MemoryTM (a five-memory system)
- Algebraic logic
- Automatic log and trig functions
- Register exchanger
- Radix or degrees
- Special statistical, financial, and engineering instructions.
- 0.4"*1.1" x 2.1.1":
- In stock - immediate delivery guaranteed!
- Much more!

MIT Student Special...now only $129.95

Chafitz Equipment Company—one of the world's leading specialists in electronic calculators—is honored to introduce the new Spectrum SP-70, a most unique, compact, and unusually complex precision computation instrument. In the price range of every engineer, scientist, statistician, student, and professional.

Your local computer, business and scientific dealer will introduce the SP-70 in your area.
