NOTES

* Men are invited to participate in a Men's Sharing Day this Saturday, Feb. 8, at Project Place, New Community Project (32 Rutherford St. Nurses, 2 blocks from Northampton Street Station stop on the Orange Line). Between the hours of 9:30 am and 5:00 pm there will be discussions, workshops, the film Men's Love, and videotaped presentations. All men are invited whether experienced with men's consciousness raising groups or just curious.

* A mini-performance will be presented at Wellesley College by Karl Kirk on Tuesday, February 11 at 8:30 pm in the Student Arts Center and on February 12 at 7:30 pm in the MIT Student Center. Mr. Kirk will attend his work as a professional actor. The performance is free of charge.

* Course V91 Orientation Lecture for Sophomores interested in entering Course V9's Cooperative Education Program: Tuesday, February 11, 8:30pm. Room 450 in the Student Center. Students currently on the Program, Faculty Advisors will be available for discussion.

* Bi-Pi Technology presents Perception Tuesday, February 11, 7:30 in 21-105. Dr. Barry Berger, MIT, "Theories & Myths in Hi-Fi Standards" and Michael de Witt (President DBX, Inc.) "Overcoming Dynamic Range Limitations in '4-Track Stereo' Storage, Records and Tapes." (With demonstrations) All are invited.

* The office of the Dean of Student Affairs is now accepting letters and resumes from students, both men and women who wish to be considered for positions as Graduate Research Assistants in the graduate departments in the humanities. Letters outlining academic background should be sent to Room 7-335, no later than February 28. Must be enrolled at a graduate student at MIT with either an MIT undergraduate degree or completion of one year of graduate work at MIT. Applications for rooms for 12 months, board for the academic year, doctorate - academic, personal and social interaction. Further information at a "orientation" Thursday, February 13, at 8:00 in room 37-232.

* COURSE EVALUATIONS - will be coming out but we still need help to finish it up. The more people help us, the sooner it will come out. There will be a workshop for Course Evaluations this Saturday, February 8 starting at 10am and continuing through the afternoon. We need you, people, no particular skills are required. Come for as much time as you can spare! We will be in the TCA office, rooms 450 on the Student Center.

* TCA Open MEETING - Are you interested in Hi-Fi GAMIT, Record Drives, Bookswaps, Course Evaluations, Ticket Service, Freeform Recordstock, ??!!! Come to our open meeting on Tuesday, February 11, at 7:30pm in the TCA office, room 450 in the Student Center and find out how you can work on any of these activities. Or call 3-4885 for more information.

* A workshop on the technological and scientific problems of marine acoustics will be held at MIT from 10 to 4pm Tuesday, Feb. 11, Student Room II, 1-236. Speakers include Dr. L. D. Dyer, head of the Department of Ocean Engineering; Dr. George F. Bott, professor of physical oceanography at the University of Pennsylvania; Dr. Harold E. Edgerton, Institute Professor at MIT; Wilford F. Stark Jr., and William A. Baker, instructors at the Department of Ocean Engineering, and David Wyman of the National Oceanographic Data Center.

Thomas Edison's Birthday Sale.

Contrary to popular belief, Tech Hifi did not invent the phonograph.

In honor of the man who beat us to it, Tech Hifi announces our Edison's Birthday Sale. A weeklong celebration of low prices on high fidelity. Like this sale system featuring two Centura 4 loudspeakers, a Nikko 1010 am/fm stereo receiver, and the Glenburn 211 TA automatic tunable with base and dustcover. You Save $95 This week only $289

Free Stereo Buyer's Guide.

Please send me a free 48 page, 1975 Tech Hifi Buyer's Guide (usually sells for $1.00). I understand it contains everything I need to know about buying a music system.

NAME
ADDRESS

Mail to: Tech Hifi, Advertising
48 Teed Drive
Randolph, Mass. 02368

For an additional $25 you can have a set of TEAC HD 100 headphones with this system.

Tech invents a phonograph sale.

Over the years, Tech Hifi has invented a lot of reasons to have Sales. It's how we justify lowering the prices of nationally-advertised manufacturers. They like to hear reasons.

This week we have another patented Tech Hifi Sale. With sale prices on stereo systems featuring Pioneer, Advent, BSR, Nikko, Ohm, Kenwood, and many other name brands.

Tom never dreamed of phonographs like these.

Edison thought his phonograph should be used exclusively as a dictating machine. He never wanted his favorite invention sold for such frivolous folly as home entertainment. "The phonograph is not a toy," Tom once muttered. But alas, the phonograph has evolved into a wonderful, sophisticated toy for all ages. And Tech Hifi has evolved into a wonderful, sophisticated toy for all ages.
