Changing Faces - Betsy Sholl (Alice James Books; 22 pages; $3.00) -

The senior author, Frank Whitt, is a distinguished Whitt's text. The book then examines the systems in detail.

The study concludes with a look at possible improvements in braking. Wet weather braking is a problem in all-weather bicycles is presented throughout the book. Pictures, tables, and graphs are used to explain the various aspects of the bicycle.

The events re-enacted were no game. The men who stood waiting for the King's troops were sober, serious Yankee farmers. Few had been touched by the wild raids from the Boston mob, most were content as Englishmen. On that morning they saw themselves as defending their sacred liberty. This country has an inner sanctum, turn-
