Polycsi program set

(Continued from page 1)

MIT students would take humanities courses at Wellesley. Although MIT students do indeed take Polycsi courses at Wellesley, Wellesley students also take Polycsi, and vice versa. The students take classes at MIT, according to Joanne Sauer, MIT’s Wellesley Exchange coordinator.

Sauer listed the most popular areas of study among Wellesley students in the Polycsi program: humanities, psychology, political science, and women’s studies.

Professor of Mathematics Kenneth Hoffman, chairman of the committee, said, “I think that the change in environment — the change, said that “students participants in an electronics course.” She, along with the most active volunteers in the center and provides inmates with tools, materials, but now seems to be well supported by prison officials.

One of the problems at Cambridge is that inmates are young and many of them have relatively light sentences so they are seen as being less in need of schooling and vocational training than their counterparts at high-security prisons. “We were told the squawking wheel gets all the oil,” one inmate said.

The people in the Information Center are helping to expose the center to its problems, and it will go through periods with prison administrators who were less than enthusiastic about the program, but now seem to be well supported by prison officials.

One of the problems at Cambridge is that inmates are young and many of them have relatively light sentences so they are seen as being less in need of schooling and vocational training than their counterparts at high-security prisons. “We were told the squawking wheel gets all the oil,” one inmate said.

There are an estimated 70 active volunteers in the center, and it is estimated that there are about 1000 inmates at the prison. The center helps to fill the educational vacuum currently existing. “I’d like to see some kind of hook-up with MIT, a phone line to a computer where both job and educational information would be available,” an inmate in the center said.

The lecture series, which will run through June 4, is being held in the Student Center. A lecture series is being offered a $25 reward for information leading to the identification of the person or persons responsible for setting off a "stink bomb" Sunday night, according to Dorothy Moeller, Wellesley Community Service Fund director.
