Executive Board

Warren Loui
Hi, my name is Warren Loui, I'm a sophomore in Civil Engi-
nership and a member of the Class of 79. I have had
some experience in student government (these past
two years) and this experience will serve me well if
I should be elected. In the past I have served as
Domestic and, of the Rate Review
Committee. At the present time
I am the President-elect of the
Burton House. In addition, I am
Power infused, as I am a student
captain with the Student Center
Dining Service. This past fall
I was the co-chairman of Harvard
Orientation on the RCO Committee.
I am also involved with other
organizations, Chi Eta Psi, Sigma
USC, Theta Chi, and the MIT
Chess Club. Last year I did
a UROP with the Harvard Citizens
Committee on Criminal Justice.
Fortunately, I also have
time to participate in MIT Sports,
as I have played on teams
in eight different sports over the
past two years.

I have found that cannot start a
decision and leave it
out. Should a project
be started, there must be enough
energy in its supporters to carry
it through. I feel that we have
the ability to see things through.
Communication is essential
to effective student government.
To overcome apathy and lack of
interest, a new system of
undertake this project
accomplished perhaps by a
monthly newsletter to inform
the students of the students
interested projects in
people.

Bruce Wrobel
I am running for this office
because of a strong interest in
student government. I have
done what I can accomplish when
combined with enthusiasm. My experience includes
several responsible positions,
including president of my
senior committee and
athletics have been athletics where I
lettered in Wrestling. I have yet
to convince my parents that this is likely. I am also a brother of
Sigma Alpha Epsilon fraternity,
but this is the collection of class opinions to be
under the auspice of academic
committee which directly affect
your life at the time. Another
important function would be the distribution of useful
information from the administration
and students to each other.
I have no doubt that the
have not yet had the chance to
meat of all you, so I'd like to
express my sincerity and
appreciate your support.

Bowie Lee
In the past, the lack of stu-
dent interests and activities
has affected many people, even
the class officers, to believe that
the sophomore class had
another name for the Ring
Committee.
I disagree.
I think it is the responsibility of the class officers to find
out what the students want to
do. I propose that we start early; in an academic year,
We should be distributed among
students before this spring term
ends. With the help of my
classmates, the Class of '79
government can realize whatever
the class desires to do.
It has been my conviction
that an effective student government needs an effective
Executive Vice-President to
assist and supply the
President with new ideas. If I were
elected, I will try very best to
be one.
I, besides, how could you
vote for a guy who was
rejected by Harvard.

Sharon Lowenheim
I am running for Class
President so that I can sleep at
day. I have always seen high
potential in my classmates and
who just want to be big shots,
get their friends on committees,
or have something flashy to put on
a college application.
At least I know that I am
President, there is
body in office who cares about his
classmates. I am the best
him or she can possibly
Aside from serving on the
Committee, the Sophomore Class
President has no set duties. In
dependent, the class is
not allotted any activity funds.
Instead, I will try to get in touch with
my classmates through a survey or questionnaire.
I find out what they expect from their
Presidents, and what activities they are interested in, and in
find some way of making those possibilities into realities.
After all, every student is entitled to a considerable represen-
tative in his government.
And at good night's sleep.
