A new American-Israeli students' house has been actively supported by MIT. The house was opened on August 1st, and has been well received by the students who have been residing there.

The house, which is located at 747 Massachusetts Avenue, is designed to accommodate 24 students at a time. It has a variety of common areas, including a living room, kitchen, and dining room.

The house is managed by a group of students who are responsible for the day-to-day operations. They organize events and activities for the residents, and work to create a sense of community among the residents.
