“the ‘Leonardo of our age’,”

Newsweek

"The Planet’s friendly genius" gives his eloquent autobiographical statement, AND IT CAME TO PASS — NOT TO STAY. Fuller writes with clarity, wit and charm as he discusses what he has learned about Truth, the Universe, and the Destiny of Man; he analyzes and responds to the current world crisis and our present economic and political system. He completes his analysis with a personal credo for living in a new age. A book not to be taken lightly, or missed. Macmillan $9.95
