Alley to be rerouted for driver-pedestrian safety

(Continued from page 1) More vehicular traffic is planned. He thought that the main use for the road should be merely as an access road and that more traffic should be discouraged. Moving the alley north would also give the Memorial Drive fraternities more room for parking and driveways so that the cars don’t exit onto the roadway. Simha also said the plan would encourage frats to “clean up their backyards.”

The refurbishing of Amherst Street is a “long standing project,” said Simha. Over 50 per cent of the project (from Westgate to Burton) has been completed to date. The current project is the final step in the completion of Amherst Street.

Simha stressed that the planning office has been in consultation with dormitory and fraternity leaders over the years. He said that the plans have been “refined over a long period of time.”

Simha stated that the project is “something we would like very much to do, even if the funds are available.” The planning office is currently seeking donors for the project and no target date has yet been set for the commencement of the project.

### Why HiFi's Prices Are Lower Than Other Stores:

**We get a better deal, you get a lower price.**

People are always asking us, “How can you afford to offer such low prices and still have such strong guarantees?” The answer is surprisingly simple. Of all the places you can buy hi-fi, only Tech HiFi has the combined purchasing power of fifty-four stereo stores. We buy in such large volume, that we get a better deal from the manufacturers. Which means you get a better deal when you buy from us (we actually guarantee the lowest price in writing).

In addition to our unbeatable low prices and fourteen important satisfaction guarantees, Tech HiFi offers the kind of knowledgeable, personal and advice that's so important when you shop for hi-fi - because a low price on the wrong music system or component is no bargain.

**Great systems at the guaranteed lowest prices in the area.**

Just one of many complete component systems on sale at Tech HiFi this week. Features accurate KLH 100 two-way loud-speakers, a high performance Nokia 205 stereo receiver and the fully-equipped BSR 3260BX automatic turntable... all for just $299! If you find this system selling for a lower price anywhere in New England within thirty days of purchase, we'll gladly refund the difference.

### Thayer School of Engineering

- **Dartmouth College**
- Recruiting for Masters & Doctoral Candidates in following areas:
  - Biomedical Engineering
  - Electronics & Materials
  - Environmental Engineering
  - Fluid Mechanics & Thermal Sciences
  - Public Systems Analysis
  - Radio Physics & Space Sciences
- Fellowships and Research Assistantships Available

**Interviews from 9:00AM until 2:00PM on Friday, 10 December in office of Career Planning & Placement.**
