TYPING STUDIO

32 East 57th Street

If you want to get into nuclear engineering, start by getting into the Nuclear Navy. The Navy operates more than half the reactors in America. So our nuclear training is the most comprehensive you can get. You start by earning your commission as a Navy Officer. Then we give you a year of advanced nuclear technology, training that would cost you thousands if you could get it in graduate school. During your career, you will get practical, hands-on experience with our nuclear powered fleet. Maybe you'll get to prove your worth-as a young Nuclear Propulsion Officer entrusted with the most advanced technical equipment known to man. If that sounds like the kind of responsibility you're looking for, speak to your Navy recruiter. He can tell you if you qualify as a Nuclear Propulsion Officer Candidate. Or call toll free 800-841-8000. (In Georgia, 800-342-5855.)
