To the editor:

As we approach another Tax Day (April 15), there are a couple of bills pending in the House of Representatives which will be of interest to many students and faculty of MIT. Some 54 million Americans are hit with an income tax penalty of up to 20% because they are single, or because they are married with a 1040A or 1040 long form return. This inequality has for so long been available to homeowners.

Anyone interested in more information about these bills is urged to send a long self-addressed stamped envelope to Box 4330, Arlington, Virginia 22204, mentioning that this letter was read in The Tech. Thank you.

Lee Spencer
