By Mark J. Snakley
Editor's note: Mark Manley, co-Chair of the Tech, is a member of the Dean's Forum. A Dean's Office planning committee approved last week the creation of a forum to discuss and resolve the MIT's current problems, and recommended that the first topic be MIT's current policies pertaining to even classes.

The invited Dean's Office planning committee included members of the Dean for Student Affairs Office, faculty and students—both undergraduate and graduate. The committee recommended that Fred Durepo of the Dean for Student Affairs office chair the forum.

Charming Oldkermaster house at Hyde Park. Elsie & Fred Durepo $S2.500. Frame. 7 rooms. 4 bedrooms, 1 ½ bathrooms, enclosed back porch. Living room, dining room, kitchen. From Pressman's Dean's Office.

The planning committee felt that this was especially important when issues are tackled for which no solution exists. Early internal memos among planning committee members indicate that possible forum topics could be so philosophical that the question raised is not: "What is the solution?" but rather: "Is there a problem or even a potential problem?"

The planning committee foresees the forum tackling two or three different issues each term.

"The real key to success... is going to be the information dissemination," according to Douglas McLeod '77, one of the members of the planning committee.

The planning committee felt that this question was especially important when issues are tackled for which no solution exists. Early in-term memos among planning committee members indicate that possible forum topics could be so philosophical that the question raised is not: "What is the solution?" but rather: "Is there a problem or even a potential problem?"

The planning committee foresees the forum tackling two or three different issues each term.

Asst. Dean for Student Affairs Holly Heine '67, has been attempting to get the forum under way. The Tech planning committee approved last week the formation of a forum to discuss and resolve the MIT's current problems.

"The forum will not have set goals and define a visible structure," said according to Heine the forum is to "buy an answer to the question: what is the problem or even a potential problem?"

Heine added that the forum will not have set goals and define a visible structure. "The problem is to be discussed," explained Heine, who feels that the word 'forum' implies a more amorphous structure than the planning committee intends.

Dean for Student Affairs Carol Eisenberg's proposed solution to the problem of the name for the forum is to "buy an extra ice cream for the one who comes up with a good name."

Center Entrance Colonial Home: 4 bedrooms, 2 baths, hardwood floors, built-in kitchen. Call us or write 125 Arbor Ave. Call owner, Mr. & Mrs. J. L. Miller, 378-3000.

For Sale: Air Mattress, Dresser, Contact Lens, $3-1541.

Charming Olden Valley Home, Car-

ge Barn, 3bed. 2 bath, 35 room wood floors. 7 rooms. 4 bedrooms, 1 ½ baths. Full basement and attic. 12,000 sq. ft. $2,500. 1,250 sq. ft. $2,000. 450-0498. 2½ rooms. Fire-OWall.

Wanted: 1 Oldie Power Tower. Contact Mark. $1-1541.

The Tech Classified Ads Work! 5 cents per line. For the first time $2.25 per line after that, if adequate. Send ad with payment to The Tech, 270-483 or 30 Box 28, MIT, Chemical Engineering. MA 02139 by US Mail.

CRYODYNAMICS

Given, superconducting mag- nes are at least 20 times, or 2,000 per cent, more efficient than elec- tromagnets. Electric motors get torque from magnets, not electric- ity. Electromagnets are capable of doing a certain amount of work and draw no more energy when they are not in use. Work. The current in a superconducting mag- net has the same result as the effort spent in a permanent magnet but does not last as long. An electric motor is nothing more than a mix of stationary and rota- ting magnets.

Shoumdn't we be building liquid helium motors? Would they have useful output after recompressing the helium? Try to think of a heat pump as operating over a wider RANGE of temperatures than a resistance heating element or an internal combustion engine then extend their range down to 0 de- grees K — by 2W Eaton, 6143K Edsal Rd., Alexandria, Va. 22304.

Why Tech Hifi is the best place to buy stereo. Of all the places you can buy stereo, none offers you as much as Tech Hifi. We carry over 70 brands of quality components. And we guarantee what we sell.
