Why tomorrow's professionals choose Hewlett-Packard's first family of advanced calculators today.

They're proven performers. In space. On Everest. In the labs of Nobel laureates. Since we built the first, back in 1972, our advanced calculators have been tested by millions worldwide, and they've passed.

They have staying power. Today's classroom problems quickly grow into tomorrow's on-the-job problems. HP calculators are designed to handle both. They're investments in a future that happens fast.

They're straightforward. "Advanced" doesn't mean "complicated." It means "uncomplicated." HP calculators are, above all, straightforward.

They're easy to use. HP calculators not only grow with you; they work like you think. They feel natural, comfortable, because we designed them to work like you think.

They're efficient. HP calculators take the direct approach. All feature RPN, a time-saving, parenthesis-free logic system. All programmables feature a memory-saving keycode merging capability.

They're personal. Professionals design their own ways to solve their particular problems, and they expect their calculators to be versatile enough to accommodate them.

Ours are.

There's a variety. To say we offer a full line is an understatement. We offer a choice. That's why we publish a unique "Selection Guide" that spells out the capabilities of each. Your HP dealer has your free copy.

(800) 648-4711. The number to call for more information and your HP dealer's name and address (unless you're in Nevada, in which case you can call 323-2704).

HP-29C. Our NEW Programmable with Continuous Memory. $195.00*.

Its 98-step program memory and 16 of its 30 storage registers stay "on" even when the calculator is "off," so you can store programs and data for as long as you wish. Continuous Memory plus fully merged keycodes bring typical program memory capacity to 175 keystrokes and beyond. Insert/delete editing. Conditional and unconditional branching. Three levels of subroutines, 10 decision tests. Exceptional versatility at an exceptional price.

HP-25C. Our NEW Programmable Without Continuous Memory. $125.00*.

Saves repetitive problems automatically. Enter your formula once; thereafter only variables. Requires no software, no "computer" language. Only the best priced programmable. We call it "multimode," because the HP-25C can switch Continous Memory to the HP-29C, for $160.00. It retains programs and data even when turned off.

HP-22C. New Programmable With Continuous Memory. $410.00*.

The most powerful pocket calculator we've ever built. 224-step program memory, 32 storage registers. "Smart" card reader records contents of both. Fully merged keycodes increase memory capacity up to 450 keystrokes and beyond. Superior editing capability.

HP-21 Scientific. $50.00*

Performs all standard math and trig calculations, the latter in radians or degrees. Performs exponential/pow on conversions. Displays in fixed decimal or scientific notation. User's own table format.

HP-22 Business Management. $135.00*

A new kind of management tool. Combines financial, statistical and mathematical capabilities. Enables business managers to forecast faster, more accurately and with greater certainty.

HP-23 Scientific Programmable. $175.00*

Solves repetitive problems automatically. Enter your formula once; thereafter only variables. Requires no software, no "computer" language. Only the best priced programmable. We call it "multimode," because the HP-25C can switch Continous Memory to the HP-29C, for $160.00. It retains programs and data even when turned off.

HP-27 Financial/Statistical/Scientific. $170.00*

Contains the most preprogrammed scientific functions we've ever offered, plus comprehensive statistical and financial functions. Lets you logarithmize, allocate resources, analyze costs-quickly.

HP-87 Fully Programmable. $450.00*

The most powerful pocket calcula-

tor we've ever built. 224-step program

memory, 32 storage registers. "Smart"

card reader records contents of both.

Fully merged keycodes increase memory

capacity up to 450 keystrokes and be-

yond. Superior editing capability.
