Night life ran pretty thin for 1953 Techmen

Editor's note: Dormitory rules and MIT social life were quite a bit different twenty-five years ago, as shown in a 1933 issue of The Tech shows.

The Dormitory Judicial Committee has the right to expel any student from the dormitories and to recommend expulsion from the Institute for any of the following violations:

Dormitory Rules
1. Violation of the Open House rules described on the following page.
2. Excessive noise or disturbance detrimental to general study conditions.
3. Damage, destruction, or illegal possession of dormitory property.
4. Use or storage of chemicals or ammunition within any dormitory without the written consent of the Dormitory Judicial Committee.
5. Throwing of any object of any sort from the roofs or windows of the dormitories or setting off explosives within the buildings proper.
6. The use of fire extinguishers for any purpose other than their proper use.

Field Day
To preserve study conditions in the dormitory system, especially before final examinations, the Dormitory Committee has passed the following rules with explanation:
Group demonstrations, specified as being on foot and utilizing sophomore ranks, within the dormitory buildings are to be discouraged as they are a detrimental influence on study, particularly and often result in property damage. Any person taking part in such a demonstration, without written permission from the Dormitory Judicial Committee and will face expulsion from the dormitory system or possible eviction from the Institution.

Scanlon to teach drama, will supervise Dramashop
By Kent Pierson
Robert N. Scanlon '70 has been named Assistant Professor of Drama and Theatre Arts and will begin this fall to assume a number of duties formerly handled by Director of Drama Joseph D. Eveningham.
Scanlon will take over as supervisor of Dramashop, directing its IAP production, in addition to teaching classes in modern drama (21.031) and theatre arts (21.118).
Eveningham will continue to direct Dramashop's major spring production. Planning is under way for an alteration in the traditional schedule to allow the production of a full-length fall play, which he would also direct.

Extension of Hours
The Dormitory Committee with the approval of the Office of the Dean of Students has extended the above hours for the following events, and these only: Junior Prom Formal, 3 a.m. Dorm Christmas Formal, 2 a.m. Scabbard & Blade Formal, 2 a.m. Assemblies Ball, 4 a.m. All Tech Dance, 2 a.m. Dorm Week End Formal, 2 a.m.

Baker House
Lobby Main Lounge Dining Hall & Balcony

Your Food Services
welcomes you to M.I.T. again, for the first time, or whatever. This year there are seven (7) -- yes, count them, seven (7) -- different contract plans to choose from. Some are brand new, some are old, some are very old, and some are modified. Student feedback says that: "One is Right For You!"

Pay no more gas taxes no open tribute electriify a bug
For: A transport or battery research project
-- may use Gov't funds

Commuting without polluting
Recharge at 110 volt AC outlets for 1 to 2c a mile
Run up to 50 miles or more at 50 mph before charging
Pay the purchase and installation costs off in a few years in the gas and engine maintenance cost savings
Have a vehicle available for the exotic batteries coming
We sell the conversion kits. We install on request.
Mail info available. Demo on appointment

The Bus
If you want to cook for yourself or just pick up some snacks, The Bus will take you to your grocery shopping more convenient.
The Bus will provide continuous service to Stop n' Shop supermarket every Saturday beginning Sept. 17. It will serve all MIT dorms and the cost is $2.00 round-trip. Watch for details.

Sponsored by DormCon.

THETA CHI
STEAK & EGGS
BREAKFAST OF CHAMPIONS
Saturday, Sept. 3 8:00AM to 11:00AM
528 Beacon St. Boston 267-1801
Cars will be waiting at 8:00AM and 9:00AM
behind MacGregor and Baker on Amherst St.
and beside East Campus on Ames St.

Air Force ROTC has scholarships, allowances and jobs for selected science and engineering majors.

Air Force ROTC has openings for young men and women majoring in specified science and engineering academic fields. Fields such as Aeronautical, Aerospace, General and Electrical Engineering, Mathematics, Physics and Computer Technology. AFROTC enrollment pays well now and could keep paying off in the future.

Air Force ROTC offers 4-year, 3-year and 2-year scholarships with $100 monthly tax-free allowance. AFROTC also offers the $100 tax-free monthly allowance during the last two years to selected science and engineering academic fields. Fields such as Aeronautical, Aerospace, General and Electrical Engineering, Mathematics, Physics and Computer Technology. AFROTC enrollment pays well now and could keep paying off in the future.
