MITRE is an organization that faces the challenge of minds each day.

We know that our unique resource is the human mind. And that
the minds we seek are those that need to know they will be working with

a score of national, state and local governmental agencies.

At MITRE we will demand a lot from you. And we expect you to
demand a lot from us. Because at MITRE, minds matter.

Entry-level career assignments now exist for graduates to work
on project areas that include Command and Control Systems, Informa-
tion Processing Systems, Electronic Surveillance and Communications
Systems.

We want to talk to Electrical Engineering, Computer Science,
and Mathematics majors.

We want to talk to you about the work we do. Work that you
could be doing too. In Digital Information Systems > Data Handling
and Reduction > Microprogramming Techniques > Microprocessor
Applications > Software Development > System Analyses > Tactical
Control Systems Engineering and Artificial Intelligence Software
Design and Applications.

And that's not all. We want you to know about the work we're
doing in Telecommunications Voice Communications > Microwave
and Digital Signal Processing > Radar Design > Tracking > Communi-
cations > Satellite Systems and Terminals > Circuit Message
and Packet Switching Techniques.

We invite your further interest in MITRE, a place where minds
matter.

Please make arrangements with your Placement Office to view
our 12-minute color video tape presentation.

MITRE will be at the
Massachusetts Institute of Technology
on
November 10, 1977

Our technicians can tape large manuscripts with the speed and
timeliness of any machine service in New England. We follow any style desired. All work is fully signed.

Why David Sullivan needs your 1 vote.

David Sullivan has emerged as one of the most effective and hard-working reform leaders both in Cambridge and in the state. State Representative Barney Frank has said, "If he is elected to the Cambridge City Council, not only will Cambridge benefit, but another badly-needed voice will be added to those making the fight for honesty and social justice in this state."

For seven years David Sullivan has been an activist for political reform. As an undergraduate at MIT, he worked to open voter registration to all Cambridge residents. As a member of the Democratic State Com-
mmittee and City Committee, he has moved for reforms to open up the political process. This year, he gradu-
ated with honors from Harvard Law School, and he is now using his legal skills to rewrite the state's elec-
tion code as a legal assistant in Secretary of State Paul Guzzi's office.

David Sullivan

He has worked to elect progressive candidates who
share his beliefs, and for issues such as rent control.

He brings the same concern to his campaigning for City Council. As The Real Paper said about his can-
didacy, "David Sullivan has run a very vocal first
campaign on strengthening rent control, restricting
condo conversion, and creating alternatives to the
property tax for city revenue."

David Sullivan has never run for the Cambridge City Council before. But he has a great chance to win
the seat that will put a reform majority on the City Council.

Your number 1 vote can make sure of that.

David Sullivan
