Police Blotter

Officer Assaulted
Prior to being taped by his superiors, the patrolman was attacked by a police officer who had been a suspect in several burglaries.

Baker Bomb Threat
A bomb threat was called in at the height of last week's blizzard. The Campus Police were forced to evacuate the Baker House for a "bomb" that did not exist. The call necessitated the early morning evacuation of the house, forcing hundreds of residents to flee to nearby dorms to escape the hurricane force winds, fierce blowing snow, and extreme cold. Investigators are checking on reports that the call came from a Baker House resident.

Snow Jumping Injuries
Two campus residents sustained back injuries in separate incidents. One was jumping from an upper story window when drifting snowbanks during the blizzard. The other, a resident of 351 Massachusetts Avenue, was taken to the Mt. Auburn Hospital by Cambridge Fire Rescue. He was transferred back to the MIT Infirmary Monday.

Next year you could be on a scholarship
An Air Force ROTC two-year scholarship pays your tuition and gives you $100 a month allowance. And it picks up the tab for books and lab fees, as well.

After college, you'll receive a commission in the Air Force ... go on to additional, specialized training ... as you get your start as an Air Force officer. There'll be good pay and responsibility, and lots of other benefits ... and a great opportunity to serve your country. It all starts right here — in college — in the Air Force ROTC. Look us up ... see what we have to offer, and show us what you can offer in return.

PERSONAL ELECTRONICS

The TI-57: The super slide-rule that'll get you into programming... fast and easy.
Even if you've never programmed before.

For the student who requires slide-rule functions, the TI-57 delivers an exceptional combination of advanced mathematical and statistical capabilities. From functions such as trig, logs, powers, roots and reciprocals...to mean, variance, standard deviation and much more.

And as long as you're in the market for a super slide-rule calculator, which one that also can also put the power, speed and convenience of programming at your disposal?

Programming a calculator simply means giving it a logical set of instructions for accomplishing what you want it to do. Programming enables you to solve lengthy and repetitive problems quickly by substituting new variables into the set of instructions which you have already entered into the machine. The end result is more efficient use of your time in problem-solving.

All this and more is explained in our unique, illustrated, easy-to-follow guidebook, "Making Tracks Into Programming." This 200-page book comes with the TI-57. It contains simple, step-by-step instructions and examples to help you quickly learn to use programming functions to make your problem-solving faster, more accurate and fun.
