When you're the recognized leader in the creation and production of advanced data communication systems...first in high-speed modems...first in network processors...further advanced in applications of LSI...pioneer in computer communications...your sales and service network covers the world...a new facility and a vastly expanded research engineering-administrative complex is being built to accommodate your growth...

Then you've chalked up some very impressive milestones and you're the envy of the industry. Milestones are commonplace at Codex, where we've built a company on ideas and innovation—if you want to be part of our incredible growth and you've got the skills that will help us to keep up with increased product demand we want to talk with you.

ON CAMPUS INTERVIEWS Thursday, April 6

SYSTEMS ENGINEERS

Hardware Education with Software Capability

Our Systems Engineering Department is seeking Systems Programmers to work within a multiple microprocessor architecture developing customized data communications products. Successful applicants will learn first-hand both the elegance and the quirks of large scale—often times worldwide—data communications networks. You will be building, designing, testing and installing customized networks based on Codex 6000 Intelligent Network Processors and other Codex equipment.

R&D PRODUCT DESIGN ENGINEER

Hardware & Software

Our Research & Development Department is seeking innovative design engineers and programmers to work with advanced microprocessor technology for applications to data communication products. Hardware development positions are available in analog, circuit design, logic design and microprocessor systems design. Software positions are open in systems design, applications software, and diagnostic software.

Successful applicants should have a Bachelor's degree in Electrical Engineering or Computer Science and experience with microprocessor systems, programming digital logic, and circuit design. A strong interest in Data Communications would be a desirable asset.

Many schools have no ring committee. Rings at these schools are sold through the college bookstore. According to members of this year’s organization, this leads to higher costs and lower quality.

Mass. auto insurance, explained.

Mass. auto insurance can get a little complicated. As a rule, at least 25, 50, 100 is the absolute minimum you should buy. We'll simplify things. And we'll help you keep your premiums as low as possible.

W. T. Phelan & Co. Insurance Agency, Inc.

SYSTEMS PROGRAMMERS

Our R&D Department is also seeking innovative Systems Programmers to work with advanced microprocessor architecture for applications and data communications products. Successful applicants will develop operating systems and application software in a multiprocessor real time environment. BS in Computer Science or equivalent with programming experience on minicomputer or microprocessor systems.

Hardware & Software

Manufacturing Test Engineering

Increased product development activity has created several openings for engineers to develop test processes and equipment for data communications products. These positions combine the technical challenge of working with complex processor-based products with the business challenge of providing cost effective manufacturing test processes. Experience in computer control testing, data communications, and microprocessor applications are all desirable.

SOFTWARE INTEGRATION, SPECIALIST

Our Research & Development Department also has an immediate need for a self-motivated individual who will be responsible for the successful integration of individual programs into a complex microprocessor communications network. The position will involve the design, implementation, and testing of this network. The successful applicant should have programming experience with a systems approach to design. BS/MS in Computer Science or equivalent.

Please see your placement office to arrange an appointment with one of our representatives.

If you are unable to interview at this time or would like more information about Codex, please forward your resume to Mr. Charles T. Cambell.
