class officer candidates

(Continued from previous page)

There is a need for qualified and dedicated officers in class reunions. I have proven my ability to organize events and have a knowledge of MIT activities, and I have seen the difference good class officers can make in these programs. As your Vice President, I will be assisting in the designing and carrying out of graduatation-related and especially post-graduation activities. I urge you to support me if you desire a responsible and competent individual for your class officer. Thank you.

Larry Yablonski

Many of you in the class of 1978 may not have much class spirit or even interest in MIT; this may have been brought on by the occurrence of five years ago, you may have even begun to like the place. Our class has been fractionalized by our current activities and has become the spirit of our class. I know the transition of our class to the year of 1982. There is a need for qualified people throughout the previous class officers, and as a member of the Junior Class, I have proven my ability to organize events and as such have been involved in many organizations. I have helped design and manage a Sophomore Class party and several MacGregor functions in addition to chairing the '79 ring committee. Currently, I have been involved in many of the activities throughout the past year, I am an observer in the class of '79, and I am looking forward to carrying forward the same enthusiasm and energy into the next year.

Fern Crandall

Do you want to know what happens to your classmates after graduation? Class notes in Technology Review are the major responsibility of the Secretary-Treasurer. Most classes eventually decide that this job requires two people, so we decided to run together.

Any class officer position also involves carrying through the plans of the previous class officers. For Senior Week, we have wide experimentation and running activities with many organizations. Fern, our current Secretary-Treasurer, knows the status of our class funds and has been busy planning Senior Week activities. We both are looking forward to carrying out these plans. Robin, through work with the Alumni Association, understands much of MIT's organization. This will help as we run the five-year reunion.

For all these duties, two heads are better than one!

Vincent James

Secretary-Treasurer

David Browne

There are two things you should look for in a Texas Tech student government: 1) the person should have ability to organize events and a knowledge of MIT activities, and; 2) the person should be known by a large portion of the class.

I have proven my ability to organize events in 1977-78; Lobby Seven Coordinator, as a member of the 1976 R/O Committee and as a member of the 1976 R/O Committee and as a member of the Executive Committee of the Student Association. I would like to be able to work efficiently with the various class activities such as dances, T-shirt contest, or social gatherings you've experienced or would like to see come about during the next year. With the wide range of interests among students, it is vital that they express their ideas. It is the responsibility of the class officers to seek out student views and follow through on them. I am running for vice-president because I will be able to responsibly organize class activities for next year and represent a broad cross-section of the class of '79. Accomplishing this requires the support of students now and continued input, constructive criticism, and involvement next year.

Ann Conway

vice president

Jerry Hammond

This year the class of 1980 has the potential to enjoy a prosperous year. I want to contribute to our class activities and think I would be a very valuable asset. I have a strong ambition to see some new events added to our class year. My participation in MIT activities is not overwhleing, but when I participate I do so to the best of my abilities. One example of this is my help in the organization of the Easter Seal Dance-a-thon that raised $5,000 for Easter Seals.

My devotion will not diminish after elections; I intend to keep working throughout the year and encourage input and ideas from any students who would like to make any suggestions.

Bogdan Dawidowicz

This past year, as a member of Excomm, I advocated an active student government. The officers published newsletters, and I co-organized The Luau and the Junior Class Dance. Unfortunately, you student responses to these and other class-sponsored activities was disappointing. I still believe that the class has potential and I plan to continue with an active student government and plan to generate more student interest in class activities. I want to hold a regularly scheduled and announced class meeting and also get class members to promote greater student involvement.

Mark Unkrich

vice president

Victoria Chang

During our senior year, some of us will be busy writing theses, some of us will be taking it easy and slacking off, but all of us will work actively on the activities of the best, with plenty of well-organized events that can be enjoyed by all. I've heard several interesting ideas, including a trip to the Cape and a strong request for commencement ceremonies in the Great Dome. I want to be your Vice-President so that I can be a part of carrying out these ideas. Class officers should have the energy and ability to work efficiently and for a large group. I know I can do a good job — so please vote Vicki Chang for your VP.

Jay Shokeen

vice president
