World
Pope Dead — Pope John Paul I died on September 28 after only 34 days in office. The Pope, who was elected in the shortest conclave in history, apparently died of a heart attack.

Mideast
Mideast Negotiations — Egypt and Israel have agreed to reopen peace negotiations in Washington on October 12. Other Mideast nations have expressed mixed reactions, generally pressuring for a comprehensive settlement, rather than one just between Egypt and Israel.

Campus
Burton resident in stable condition — Eric Johnson, a Sophomore in Burton House, was listed in stable condition Saturday after he had fallen and become trapped under an outboard thigh and injuries to his right shoulder, head and abdomen. Sophomore in Burton House, was listed in stable condition Burton resident in stable condition.

Sports
Yankees Win — The Red Sox fell to the Yankees in the playoff game yesterday. The game, which was watched by many in Loby, was bound train at the Aquarium MBTA station.

Tech Show meeting scheduled

By Bruce Nemnich
Editor's note: Bruce Nemnich '72 is among the group organizing the revival of the Tech Show.

There will be an organizational meeting of Tech Show sponsored by the Musical Theatre Guild for all those interested in any aspect of the Show this Thursday, October 5 at 7:30pm in room 407 of the Student Center.

Tech Show, a unique concept in MIT student theatre, was an original full-length musical conceived, written, composed, produced, directed, and performed by members of the student body. Originated in 1968, it grew to become a prime focus of MIT student life. By the 1970's the Show had grown worthy of extravagant $30,000 budgets (in 1970 dollars), rented downtown theatres such as the Schubert and toured in a private train. By the mid-thirties financial problems had befallen MIT and the Show, and it was discontinued.

Tech Show was reborn about fifteen years later and rose once again to prominence in the 1950's. And again, in the sixties, it faded away due to a shift of attention to another stage, the Viet Nam war and general student political unrest. The last production was 'Tech Show 1969.'

There have been some indications within the last year of renewed interest in Tech Show. Because of this interest, the organizational meeting has been scheduled. Its aims are to develop some concrete plans for the future. Of particular need is any realistic future production attempt, large or small. Tech Show is encouraged to attend the meeting and share their ideas.
