You can get off to a fast start at Corning. We don’t believe in abstract management-trainee programs. You apply for a specific job in a specific discipline, and that’s where you go to work, right away. No make-work assignments.

Sure, some time in the future you may change your mind about your career. Or you may not. Either way, the options stay open at Corning.

And the options are real. The No. 1 company in glass and glass-ceramics technology, with 60,000 products and 71 plant facilities around the world, offers opportunities in many engineering disciplines in machine design, process development, applied statistics, melting techniques, project planning and facilities construction. Whether you opt to stay within a single discipline or to zigzag, you also will determine your growth within the corporation. We don’t have any automatic escalators. It’s pure personal merit and hard work all the way — payoffs come quickly.

To learn more about Corning, do one or both of these things:
- Send for our Corning recruitment brochure. Yes, it’s a recruitment brochure, but it is straight talk about the things you really want to know.
- Write Director of Salaried Recruiting, to arrange more formal contact.

Corning is an equal-opportunity employer.
Corning Glass Works, Corning, N.Y. 14830.
