F. hockey improves

By Rich Archen

A fine effort by goalie Lisa Richardson '82 and an effective offensive attack produced a 7-0 shutout for the MIT women's field hockey team. Tech's offense went right to work and blasted Pine Manor for four goals within the first 15 minutes. Emmy Behlau '82 struck first, and Sue Flint '81 quickly followed with one of her own. Diane Ozelius '79 added a goat on a corner hit, and Behlau topped off the rally with her second score of the afternoon. Ozelius followed with her second corner hit goal, a scocher off an opponent's stick. Seizing the opportunity of another fast break, Enora Kumer '80 slipped in the final score of the day.

Richardson made 31 saves, keeping her final goal. Richardson made her second best break pass from Ozelius and manned the ball very well and did not waste any opportunities to clear the ball. Moreover, they led the ball very well and did not their first .500 season ever. Tech lost to Endicott 1-0 earlier in the season, but the Beavers are flying high and ready to get revenge.

In the second half, Julie Neuringer '81 capitalized on a fast break pass from Ozelius and blasted a shot off the Pine Manor goalie's foot and just barely inside the net. Ozelius followed with her second corner hit goal, a scocher off an opponent's stick. Seizing the opportunity of another fast break, Enora Kumer '80 slipped in the final score of the day.

The defense has been steadily improving. If MIT should be leading at the beginning of the fourth quarter, remember this: no team has scored in the MIT end of the field, the defense held strong and managed to clear the ball. Moreover, they did not waste any opportunities and scored on almost every shot on goal. Coach Deborah Clun commented that the team controlled the ball very well and did not pass it away. "The team has really come together, but it's taken a long time," she said. "The upperclassmen have worked hard for a long time. . . . This year it's paying off." The squad is now 4-5 with one game to play. They meet Endicott on Tuesday at 4pm for a shot at their first .500 season ever. Tech lost to Endicott earlier in the season, but the Beavers are flying high and ready to get revenge.

The MIT women's eight rows strenuously in last Sunday's Head Meeting will be Tuesday, October 1 @ 1:30pm. The MIT women's eight rows strenuously in last Sunday's Head Meeting will be Tuesday, October 1 @ 1:30pm. The team has scored two touchdowns in three of its four games.

Put on your raccoon coat and dust off your pennant. Homecoming is tomorrow! Intercollegiate football is back at MIT and the team is back in town for its only home game of the season.

A few years ago, the thought of a homecoming football game was sheer fantasy for most people. As late as 1976, Glenn Brownstein wrote in The Tech:

"At precisely 1:30 on a given football weekend, MIT's appointed gladiators, called from the 'rock frats' and some of the more athletic dorm residents, would jog onto the field in their cardinal and gray uniforms, topped with the traditional loony red 'Brass Rat' beaver on it. The marching band could be an enlarged, improved version of LCA's current troupe that performs at A-League football games. . . . On Homecoming Day... The Ughest Man on Campus (UMOC) rides into the stadium on a chariot, wearing the "Homecoming Queen" crown. Brownstein's fantasy is now coming true. At 1:30 tomorrow, MIT's club football team will take the field in Steinbrenner Stadium in its orange and white uniforms (a close approximation to cardinal and gray)." There will even be a marching band (although it will not march.) Regarding Brownstein's last comment, we all know what has been happening this week.

The football club plans to put on a show for the fans. In its last few games, the offense has been opening up with more play action passes. Since tb Fitchburg game, the offense has continually piled up 200 or more yards per game. The team has scored two touchdowns in three of its four games.

Tech's offense was opening up with more play action passes. Since Fitchburg, their first .500 season ever. Tech lost to Fitchburg earlier in the season, but the Beavers are flying high and ready to get revenge.
