WANTED:

Engineering and Science Majors To Help Make History.

1955. A small dedicated team of scientists and engineers began to design and construct the first submarine-launched ballistic missile, the Polaris. The team made history.

1965. The creation of the second-generation missile, the Poseidon. This follow-on design challenged the Nation's best engineering talent.

The Strategic Systems Project Office of the U.S. Navy has a limited number of career openings in three of the most important projects in recent history—Polaris, Poseidon and Trident.

As part of this team, you will be directly involved in R&D, T&E, production, logistics support, field maintenance and training.

Contact your Placement Office for an interview with the Capital Area Personnel Services Office, Navy (CAFSO-N) recruiter on February 8 or write:

Strategic Systems Project Office

Department of the Navy

ATTN: Recruitment Committee

An Equal Opportunity Employer.

We're eager to talk to people with bright minds, ambition and the urge to make big technological advances. We're looking for the successors to the great thinkers.

So, if you're approaching graduation and looking ahead to a career in research and development or engineering, talk to Gould. We're offering you as much

ability you can handle. And there's no limit to the rewards.

From computers to racing cars.

In less than five years, Gould has grown from a $500 million to a $1.6 billion cor-

nent. From engine bearings in Indy 500 racers to electric vehicle power systems, rubber recycling processes, computer sup-

plies, and many others.

The people we're looking for.

We want to talk with B.S., M.S. and Ph.D. graduates in the following disciplines:

metallurgy, ceramics, mechanical engineering, electrical engineering, chemical engineering, physics, chemistry, electro-

Will the next Alexander Graham Bell or Madame Curie please call for an interview.

ARTS/Boston vouchers available for at least 10 weeks starting in

We're looking for you. If you think you have what it takes, please contact Ms. Bushold at 864-3900.
