Launch Your Career In Arizona

ITT Courier has become a major force in the computer industry through innovative application of front line state-of-the-art technology. We produce a full line of microprocessor-based computer systems that bring the power of the computer to people at thousands of installations worldwide. In order to develop new products, features, and functions, we are constantly expanding our software development engineering department. We are now, in fact, bringing in new and talented software engineers from universities and colleges who have demonstrated the ability to produce software engineering graduates who have awareness of current micros and current software engineering/programming techniques.

Your education, energy, and professional technical skills are valuable assets. We feel we can provide you with an excellent environment for you to develop these assets. We have new, modern facilities located in metro-Phoenix, near Arizona State University, and a very professional technical staff with a reputation for excellence.

Software Development Engineers

Computer Programmers

ITT Courier can offer you an excellent salary, complete benefits and the opportunity to continue your education in Arizona. For consideration for an in-plant interview, please send your resume and/or transcript summary to:
