Next president can unify MIT

Is Hakala really sincere?

To the Editor:

I saw plenty of campaign sheets for Hakala & Markham in the student center on campus before the elections which stated "3,000 TQM." The sheets went on to say how MIT made the students pay too much and that "a 'student activity fee' as part of the students' bill" was proposed by these winners. Won't this increase the "530OC" now the question is did you ever mingle or are these winners really "losers?"
