Dollar up, gold down — Gold prices tumbled below $400 an ounce Wednesday, the first time since March 1980. Traders worried that the US Government might take steps to defend the dollar. No such moves were announced, but the dollar continued to strengthen. In the Tokyo market, it closed at 225.475 yen, up roughly 15 yen from the day before. Said a New York foreign exchange dealer, "They're still looking for Washington to come to the rescue." The Federal Reserve, however, was silent.

Political battle set in Cleveland — Mayor Dennis "Smoky" Kucinich is preparing for a political brawl with Lt. Gov. George V. Voinovich for the May primary. Kucinich, who overcame a recall attempt last year by only 236 votes, survived Tuesday's five-way primary to advance to the Nov. 6 election, but he lost Toledo by a substantial margin.

Energy mobilization board given approval — The Senate soundly defeated a bill that would have made President Carter's proposal to create a new energy agency, the Energy Mobilization Board, to speed construction of new energy projects. The Board will have broad powers to review and approve proposals for the construction of new facilities, including synthetic fuel plants and oil refineries. The Environmental Protection Agency will have veto power over some projects, and the Interior Department would also have to certify that a project would not be a danger to wildlife.

Sea Brook demonstrators warned — New Hampshire Governor Hugh Conway warned yesterday that demonstrators intending to occupy the Sea Brook nuclear power plant construction site this weekend should be ready to "pay the price" for their actions. "If you're going to be involved and you're going to be involved in the damage of private property, be prepared to pay the price and suffer the consequences," he said.

Local

Weather

Some sunny weather, but becoming mostly cloudy by late in the day. Daytime highs near 69. Rain beginning tonight, ending tomorrow morning with high of 50°F. Lows will be 59°F. Variable cloudy, hazy skies, with best conditions in the afternoon. Highs 63-67. Cooler Saturday night with lows 46-50. A few more clouds around on Sunday, but no rain is expected. Highs 60-64. Outlook for Monday & Tuesday: cool and mostly sunny. Daytime highs near 60, lows in the 40's.

things done. On the next day, the campus was a mess. There were cans all over, and the area was covered with broken glass.

The Coalition for Direct Action at Sea Brook, a faction of the antinuclear Clamshell Alliance, is calling for thousands of people from all over the nation to converge on Sea Brook in what is being called the largest civil disobedience event in antinuclear history.
