What's the difference?

If you're a candidate for a BS degree in electrical engineering, computer science, or in a mathematical discipline, you're probab-ly already confused about where to start your career. From one company to the next, they all look the same. Until you take a closer look at Codex.

As a leading producer of high speed microprocessor based data communications systems and equipment, Codex can offer you more technical challenge. More diversified opportunities. More room for advancement. And more recognition and re-ward for your efforts.

And, our exciting new facility in Mansfield, Massachusetts, is lo- cated on a lush, beautifully landscaped tract, and equipped with modern conveniences. As to make work a truly pleasant experience.

If you'd like to get involved with a company where you'll truly get more out of your career, investigate the world of Codex. And see for yourself what kind of big difference it could make in your future.

Codex Representatives will be on campus this Tuesday, October 23. To conduct personal interviews. Be sure to contact your Place-ment Office today to get your name on our interview schedule. If you're in the area, please visit our Codex table at the Career Fair. Or, reach Gary Davis, Corporate Employment Manager, CODEX CORPORATION, 20 Cabot Boulevard, Mansfield, MA 02048.

Q. WHERE DO YOU FIND ONE OF THE WORLD'S LARGEST ENERGY RESEARCH AND DEVELOPMENT CENTERS WITH CAREER OPPORTUNITIES ALLING YOU TO GET INVOLVED?

A. In Idaho, at EG&G...

WHERE YOUR CAREER WILL HAVE ENORMOUS ROOM TO GROW.

EG&G is the operating contractor for the Department of Energy's vast Idaho National Engineering Laboratory (INEL).

The INEL covers about 900 square miles and employs some 7,000 people, of whom roughly 4,000 hold degrees.

If your career plans include contributing to the development of alternate energy, EG&G Idaho, Inc. offers you a unique opportunity.

We have openings and are hiring personnel in the following areas:

ELECTRICAL ENGINEERING • NUCLEAR ENGINEERING
GENERAL ENGINEERING • METALLURGICAL ENGINEERING
MECHANICAL ENGINEERING AND CHEMICAL ENGINEERING
