Social committee makes plans

(Continued from page 1)

This Saturday, Nov. 3, 1979, has been designated by Alpha Phi Omega Service Fraternity as a "Day of Service" to set a day for renewing the spirit of service which has always been so important in this country." The Alpha Chi chapter here at MIT will be involved in four service projects that day: The Ultimate Man On Campus Contest, the TCA Blood Drive, a Dance Marathon to be held at the Omega Nu chapter in New Hampshire, and a CPR Instructor's Course for APO brothers. Alpha Phi Omega is the nation's largest fraternity and the only international service organization. It was founded in 1925, and membership is open to all college students. The APO office is room 475 of the Student Center. Their number is 253-3788. Any students interested in this weekend's events should call before Saturday.

Activities

This Saturday, Nov. 3, 1979, has been designated by Alpha Phi Omega Service Fraternity as a "Day of Service" to set a day for renewing the spirit of service which has always been so important in this country." The Alpha Chi chapter here at MIT will be involved in four service projects that day: The Ultimate Man On Campus Contest, the TCA Blood Drive, a Dance Marathon to be held at the Omega Nu chapter in New Hampshire, and a CPR Instructor's Course for APO brothers. Alpha Phi Omega is the nation's largest fraternity and the only international service organization. It was founded in 1925, and membership is open to all college students. Arts

The Emerson College Theatre Company will present Turgenev's "A Month in the Country," directed by Amoret Reimer. Performance dates are Nov. 14 through Nov.18 and Nov.28 through Dec.2. Curtain time is 8pm and admission tickets are $3.00. The Emerson College Theatre Box Office (262-2010 ext.241) for reservations. The Emerson Theatre is located behind 130 Beacon St., Boston.

Lectures

The Black Rose Lecture series will present Easter Mazour speaking on "An Anarchist Vision of the Future City," in 9-150, Fri., Nov. 2, at 8pm. Admission is free.

Mazour's subject will be the social geography of an anarchistic future, with emphasis upon the relevance of the notion of the compact city as an urban environment appropriate to an anarchistic society. Mazour, who teaches law at Hampshire College, has been working with the architect Paco Sante for several years.

Sloan School buildings to be reorganized

Plans are being made for an internal reorganization of the Sloan School. (From The Tech photo file)

Step #2.

A career in engineering. You took the first step when you enrolled in college.

The notion of seeing your ideas become reality was probably a major factor in your decision to become an engineer.

Now comes the second step. Deciding where you're going to put your ideas and training to work.

Ten years ago, Advanced Micro Devices had no products, zero sales and eight of the best people in the business.

Today, Advanced Micro Devices has more than 600 products, $200 million in sales and 8,000 of the best people in the business.

We want more.

If you're an engineering degree candidate with a solid state physics background, we want you.

You'll work for the fastest growing integrated circuit producer in the nation. You'll work with engineers whose ideas have become reality.

Step to the head of the class.

Join Advanced Micro Devices.

Advanced Micro Devices will be on the M.I.T. campus November 7, 1979. Contact the Career Planning and Placement Center for more information.
