Sizing up the race for President after Iowa

(Continued from page 4)

lican candidates three weeks ago, and that decision cost him dearly. It was the most damaging series of attacks on the absent former governor during the debate, and his popularity declined from there.

John Sears, Reagan's campaign manager, has a straightforward strategy in which Reagan would remain "high and mighty" by staying away from face-to-face public appearances and would let all the other candidates go out and make the mistakes. Sears is the man in charge of making sure that he doesn't. Sears is the man in charge of making sure that he doesn't.

In the seven states with open primary elections, Iowa has proved that it was not. Reagan must get out and actively campaign in New England, or else Bush and Baker will be continual-

ly eroding his momentum. Sears's policy of using sur-
rrogates such as Rep. Jack Kemp (R-N.Y.) to campaign for him simply won't work any more. With Bush's support beginning to wane on behalf of Reagan, one might be led to believe that Kemp is be-
ing grown into the leading vice-presidential candidate for either party, and that he isn't gaining more support that he is being groomed as the choice for the future. The fact that he has his strongest base in New Hampshire, fortunately for him, his organization in that area is too small. It is nothing more than a stepping stone. He has in fact no chance to lose in New Hampshire, Fortunately for him, his organization in that area is too small. It is nothing more than a stepping stone.
