Major Technologies

Seismic Data Collection, Processing and Interpretation. This organization is the world

leader in the search for oil. Seismic services (both land and marine) include three-

dimensional (3D) geophysical data gathering and processing, an important new approach in

delineating petroleum-bearing formations, pioneered by TI.

Interviewing on Campus

February 20-21

If unable to interview at this time, send resume to: College Relations Administrator/P. O.

Box 225621/M.S. 3548/Dallas, Texas 75221
