Women's basketball splits w/Wellesley & Emmanuel

By Steve H. Kim

After coming off a successful 41-36 effort against Wellesley last Wednesday, the women's basketball team returned to Rockwell Cage on Saturday to face a strong (10-6) Emmanuel team. It has been another counter season for Tech so far this year. They have best by as much as 36 and 31 points to Stonehill and Wheaton, respectively, but have rolled over Mount St. Mary's of the two teams.

strength is something the

Engineers are sadly lacking. Thus,

were unable to keep up pres-

sure for long.

The Saints took off on their fastbreak again and led by as

much as 27 points during the sec-

ond half. The exhausted

Engineers were unable to get back

in time to set up on their defense.

Consequently, they were often

burned by the Saints' running of-

fense. The final score was 61-38.

Coach Heiney felt that her

team was outgun and unable to shoot effectively from the inside;

these factors were mainly responsi-

ble for their play. Forward Joyce Kelly said, "I think that was

being outrebounded today.

We weren't playing as well under

the boards as we usually do.

On defense, it seemed that

the Engineers were playing well under

the basket when they set up in a 1-

3,1 Karen Samuelson agreed.

"Today was one of the first times

we used that zone, but it really

seemed to click for us," she said.

Samuelson led the squad with six

points, followed by Donna Wilson and Joyce Kelly, both

with eight.

When informed of the week 24

percent team shooting,

Samuelson commented, "I think we

get the shots, but our players need more confidence in themselves when they take that shot on the court." This year's team is a young one with only two seniors. Hopefully, the squad will
ded more confidence with time and experience.
