Pink Floyd has released yet another social commentary album, with an even wider antisocial scope than the misanthropy of Animals, their previous release. "The Trial," says writer Roger Waters, attacks "prenzonal schoolmasters, repres- 
vative mothers, unfeeling women, and a society that isolates people, comparing all 
of these to "bricks in the wall.""

At first, all these meaningful lyrics make 
the album as inaccessible as the wall that 
covers it. Only after repeated listenings 
does one realize that some fine music is 
contained on these two discs. The Wall en-
compasses more artistic diversity than any 
previous Floyd album, ranging from the 
fifteen disco-style of "The Show Must 
Go On" to the grandiose orchestration of 
"The Trial" (the group's first use of a full 
orchestra.)

In comparison to previous albums, the 
year does not live up to expectations, 
however, it does provide the occasional ex- 
ample of what a mature Pink Floyd can 
 sounds like without the self-indulgence that 
seems to affect them lately. 

Purim is coming!

... with SERVICES & PARTIES!

March 1: 5:00pm - MINCHA
Traditional Service & Megillah reading 6:60pm
Egalitarian Service & Megillah reading 8:00pm

... and Party

March 2: Traditional Morning
Services & Megillah reading 8:30am

ALL EVENTS WILL BE IN RM 491
STUDENT CENTER
SPONSORED BY MIT HILLEL x2982 for more info

The following companies will be represented:

- AT&T Long Lines
- Aerospace Corporation
- AVCO Lycoming Stratford Division
- Battelle Columbus Laboratories
- Bell Telephone Laboratories
- The Bendix Corporation
- Boston Edison Company
- Cabot Corporation
- Container Corporation of America
- Corning Glass Works
- Dow Chemical Company
- Charles Stark Draper Laboratory, Inc.
- GTE Sylvanha Lighting Products
- GTE Laboratories Inc.
- GTE Sylvanha Systems Group
- General Dynamics, Electric Boat Division
- General Electric Company
- B.F. Goodrich R&D Center
- Harris Corporation
- Honeywell Inc.
- IBM Corporation
- International Paper Company
- Kendall Company
- Lawrence Livermore Laboratory
- Los Alamos Scientific Laboratory
- The MITRE Corporation
- Mobil Oil Corporation
- Monsanto Company
- National Semiconductor Corporation
- RCA Laboratories
- ROLM Corporation
- Raychem Corporation
- Raytheon Co., Research Division
- Sanders Associates, Inc.
- Simplex Time Recorder Company
- The Tonkinc Company
- Western Union Telegraph Company

First Annual MIT
INDUSTRIAL FAIR

Saturday, March 1
1-5pm
Sala de Puerto Rico

Everyone is invited to come and talk with company 
representatives in a relaxed and informal atmosphere. This 
is an opportunity to discuss careers in industry, and to 
gather information about the individual companies.

Come any time and stay as long as you like.

Free refreshments

The S.W.E. banquet will be held in Walker Memorial.

Memorial Drive entrance.
