The world’s leading independent manufacturer of state-of-the-art data communications equipment is now interviewing top engineering grads.

Racal-Milgo, the pioneering company in data communications, is looking for outstanding young engineers who want to play an active role in the great technological developments of the 1980s.

A quarter century of dynamic growth has kept Racal-Milgo right on the leading edge of communications technology. Our engineers face some of the industry’s most challenging and rewarding responsibilities. We encourage them to think creatively...to turn their innovative ideas into successful products—modems, multiplexers, data encryption devices, and sophisticated network control systems. In an atmosphere of friendly, professional teamwork. At one of the nation’s most advanced engineering facilities.

Our suburban South Florida location offers a vibrant lifestyle of year-round sunshine and surf. With cultural and entertainment facilities, sports and recreation galore, and all the excitement of a cosmopolitan resort.

Racal-Milgo salaries and benefits are among the finest in the industry. The working conditions are excellent...advancement and recognition come fast...and our two-track career program allows engineers select their own paths into technical leadership or executive management.

Our recruiters are looking for the best. Make your appointment for an interview now. You’ll discover the unique Racal-Milgo career combination—challenge, satisfaction, security, and reward.
