Olympiad joint venture
(Continued from page 1)
the beer tab for Friday and Saturday night. Dormcon is paying for the
registration for both nights. The IFC is paying for lights and sound.

Wrobel added, "The most surprising thing was how well everyone has worked together —
the IFC, Dormcon, SCC, the UA and the individual houses. Everybody has been extremely
cooperative... the big question was just direction this thing was taking. It started as a
Greek Week with a few frats. The biggest problem was getting rid of
the image that this was a frat sponsored thing. The [organizational] committee is
basically made up of half dorm people and half frat people."
Feldman added, "The dorms got involved in it a little late."
Feldman indicated that individual fraternity members had approached
individual dorm residents to discuss the idea of a joint venture. Feldman said, "It's been
pretty much a joint effort."
Feldman concluded, "Spring Weekend, if successful, could become a major annual social
event at MIT."
