MAJOR REPAIRS & PARTS AT ADDITIONAL COST

Our Typewriter Cleaning Method...<br>
MANUAL PORTABLES — We begin by removing all rubber parts such as platen feed rolls, feet head rests, etc. We remove all cover plates so that the
typewriter mechanism is completely exposed.

ELECTRIC PORTABLES — We remove the motor, switch and wiring, belts and power roll in addition to the above. Then the machine is given chemical
immersion and an oil bath before being hand cleaned and readjusted.

THE FINAL STEP — Your machine is reassembled and goes through the normal sequence of adjustments. The parts that need heavy lubrication are oiled.
Now your machine is really clean and in perfect working operation.

OFFICE TYPEWRITERS &
ROYAL PORTABLE ELECTRICS EXCLUDED
