Six named to athletic dept. posts

By Bob Host

The MIT athletic department recently announced the appointment of six new coaches for football, wrestling, hockey, cross country, track, soccer, men’s gymnastics, and women’s crew. Timothy Walsh, formerly wrestling coach at Amherst, has joined the staff as head wrestling and assistant football coach. He had also served as Amherst’s freshman football coach.

Joseph Quinn, former hockey coach of Eastern Collegiate Athletic Conference Division III, joins MIT as its new hockey coach. Quinn had been captain of the Boston University hockey team.

Clliton West joins MIT as assistant track coach, and will become head cross country coach next fall. Previously, he had set a national high school record for the mile with a time of 4:09.0 in 1966.

Belmont native Gregory McManus joins the staff as freshman soccer coach after graduating this year from Norwich University. In addition to soccer, McManus played hockey while at Norwich.

Robert Horwitz will become men’s gymnastics coach, having served at the University of California Medical School as head instructor for trampoline and beginning gymnastics.

Doug Clark, formerly freshman heavyweight crew coach at the University of Pennsylvania, will take over as women’s crew coach at MIT. Clark has coached crew for over 18 years.

These two TI calculators can help you handle courses in math, in science, or in business. Now, and in the real world.

One real-world lesson you’ll learn in school is the importance of productivity. Time you spend doing the math part of the problem is time you can’t spend learning concepts.

A Texas Instruments professional calculator will help make your study time more productive. And it can also help you move into the world of the professional. A world where knowing the concept is only part of the solution.

Bringing out the answer requires a working knowledge of a powerful personal calculator.

Economical TI Business Analyst-I with Statistics and advanced business functions.

Pre-programmed with business functions for time-value of money, statistics, profit margin.

And other problems you’ll encounter in business school. Other capabilities include percent, squares, logs, and powers. Its 140-page book, “Keys to Money Management” (at a $4.95 value), has step-by-step instructions plus sample problems. It’s an extra value with every BA-1.

The TI-55 advanced slide rule with statistics and programmability.

This capable calculator has AGS™ easy entry system, statistical functions, 10 memories, 9 levels of parent/child programming. Its book, “Calculator Decision Making Sourcebook” (a $4.95 value), helps you get all power pre-programmed into the TI-55.

See the whole line of TI calculators at your college bookstore (or at your local EE store).
