Activities

The next meeting of the MIT Sailing Association will be held on September 18 at 7:30pm in room 410 of the Student Center. Activities will include topics on soaring, the club itself, and an entertaining film. For more information, call Carl at 247-7775. Refreshments will be served, free and open to the public.

The Charles River Skating Club is now holding registration for a series of Ice Dance Workshops to be held Tuesday evenings, September 16 to April 4. Attendance is also possible on a single session basis. To register, call the Club at 378-0648 or 484-8161.

MIT Dance Workshop's first meeting will be Wednesday September 10 at 3pm in the T-Cub Lounge of du Pont. For more information, call 223-4441.

Lectures

The Cambridge Forum, co-sponsored by the MIT Chaplain, announces their "Issues for Action" lecture series for this fall. All lectures are held Wednesday evenings at 8pm in 3 Church Street, Harvard Square, and are open to the public without charge. The schedule is as follows:

Oct. 29, Sissela Bok, "Political lying and public distrust."
Nov. 5, Backman Fuller, "More is Less - Social Progress."
Nov. 12, Helen Calford, "Nuclear Threat to Our Children."
Nov. 19, Jane Lather Adams, "Being Human - The Liberal Way."
Dec. 10, Joanne Hamilton, "A Portrait of Margaret Fuller."
Dec. 18, Georgi, Harvard Divinity School Ethicist.
Dec. 3, Laurie James, "A Portrait of Margaret Fuller."

All lectures are held Wednesday evenings at 8pm and charge. The schedule is as follows:

"Should we Regulate DNA and Gene Research?" - Zvi Z. Harshany, Office of Technology Assessment, Tufts University Assistant Professor.
"Should we grant legal rights to people living together?" - Frank Sander, Harvard Law School Professor; James Cohen, attorney.

Also announced was the Forum's "call that mind free" series appearing Wednesday at 9pm on WGBH TV channel 44.

Oct. 8, Shirley Chisholm, "America's worst enemy - racism."
Oct. 22, Roger Fisher, Bernard Feld, Albert Cusmano, George Ruthen, "Should we abandon control?"
Oct. 29, Sissela Bok, "Political lying and public distrust."
Nov. 5, Backman Fuller, "More is less - Social progress."
Nov. 12, Helen Calford, "Nuclear threat to our children."
Nov. 19, Jane Lather Adams, "Being human - the liberal way."
Dec. 10, Joanne Hamilton, "A portrait of Margaret Fuller."
Dec. 18, Georgi, Harvard Divinity School Ethicist.
Dec. 3, Laurie James, "A portrait of Margaret Fuller."
Dec. 18, Georgi, Harvard Divinity School Ethicist.
Dec. 3, Laurie James, "A portrait of Margaret Fuller."

The mysterious tunnel that was erected on the 77 Mass Ave. steps last week was revealed to be protection for pedestrians from falling water as workmen cleared the face of Building Seven last Sunday. (photo by Kevin Osborn)

The HP-34C makes finding roots and solving integrals as easy as adding or subtracting.

The HP-34C's Solve and Integrate functions put an end to laborious computations and the trial-and-error approach for determining the roots of an equation or computing definite integrals of a function. Now, a single keystroke gives you the answer. This means real-time savings for you, math, engineering, and science majors who will be performing these calculations over and over again.

Solve and Integrate are but two examples of the problem-solving power of the HP-34C advanced programmable. Dynamic memory allocation automatically converts the 21 data registers, as needed, to provide up to 210 program lines. And remembers these allocations so you don't have to. Up to 3 keystroke instructions are automatically merged into one program line extending memory to make the HP-34C comparable to calculators having as many as 570 program lines. And editing is a snap. The HP-34C's editing keys let you review your programs and insert or delete instructions as needed.

The HP-34C also features Continuous Memory that retains your data and programs even after the calculator has been turned off. Retrieve them as often as needed, without the bother and lost time of rewriting.

Visit a Hewlett-Packard dealer now and experience problem-solving made easy with the HP-34C. For the address of your nearest HP dealer, call TOLL-FREE 800-547-3400, Department 658M, except from Hawaii or Alaska. In Oregon, call 738-1001. For details write: Hewlett-Packard, 1000 N.E. Circle Blvd., Corvallis, OR 97330, Dept. 658M.
