Cocktails * Take Out Service
Open Daily 11:30AM - 12:00PM

CHINESE PASTRIES
SAT. & SUN. only
11:30AM - 2:00 PM

"Everything I tasted there was excellent, and several dishes had that unique quality of flavor that first attracted us all to Szechuan food, and that we haven't noticed as much in recent years."

Robert Nadelroh - The Real Piker - June 28, 1980

The career decision you make today could influence national security tomorrow.

For professionals at NSA contribute to the dual missions of foreign intelligence production and communications security.

Our Electronic Engineers, Computer Scientists and Mathematicians are working with systems at the cutting edge of technology.

Career opportunities and challenges await you in any of these NSA career fields.

**Electronics/Engineering**

There are opportunities in a variety of research and development projects ranging from individual equipments to very complex interactive systems involving large numbers of microprocessors, mini-computers and computer graphics. Professional growth is enhanced through interactions with highly experienced NSA professional and through contacts in the industrial and academic worlds. Facilities for engineering analysis and design automation are among the best available.

**Computer Scientists**

A NSA you'll discover one of the largest computer installations in the world with almost every major vendor of computer equipment represented. NSA careers provide mixtures of such disciplines as system analysis and design, scientific applications programming, data base management systems, operating systems, computer networking/secure, and graphics.

**Mathematicians**

You'll work on diverse Agency problems applying a variety of mathematical disciplines. Specific assignments might include solving communications-related problems, performing long-range mathematical research or evaluating new techniques for communications security.

NSA also offers a salary and benefit program that is truly competitive with private industry. There are assignments for those who wish to travel and abundant good living in the Baltimore-Washington area for those who wish to stay close to home.

Countless cultural, historical, recreational and educational opportunities are just minutes away from NSA's convenient suburban location.

In NSA your future will be decided in the earlier. The real role that the National Security Agency plays demands and ensures constant challenge and professional growth.

To find out more about NSA career opportunities or to schedule an interview through your College Recruitment Manager, call NSA, Attn: Office of Employment (M32R), Fort George G. Meade, Maryland 20755.

**The National Security Agency**

More Than Just a Career.

**Sailing**

The men's sailing team took third in last weekend's 3-Crew Team Race, hosted by Boston University. BU finished first, followed by the University of Rhode Island, MIT, and Coast Guard.

Hutch Brown's squad consisted of Dave Kurier '81, Karlen Berthast '84, Steve Dalton '82, Troy Peck '82, Ed Marcus '81, and Dave Chang '82.

The women's sailing team finished seventh in the Man-Labs Trophy last weekend at MIT. In addition, sophomores Pat Edmonds qualified for next month's New England Single-Handed Championships. The Cambridge native was the lone Tech sailor to qualify.
