Get a Head Start on Deciding Your Future

We offer the challenge of leading edge technology, assignments in research and development and living in western New York or southern California. Xerox has this and much more to offer. Come find out about Electrical and Mechanical Engineering career opportunities at Xerox. Attend the meeting at 4:00 PM on October 9th in Room 12-181. Refreshments served.

XEROX
Xerox is an affirmative action employer (male/female).

CAREERS THAT CAN'T BE DUPLICATED

---

Varian Defines High Technology

At Varian Associates, we are continually striving to redefine high technology as we develop new and innovative concepts for science, energy, communications, defense, and industry. Our Microwave Tube Division is devoted to research, development, design, and definition of such products as gyrotrons, klystrons, and travelling wave tubes for radar, communications, and energy research.

Challenging opportunities to reshape high technology are at Varian for Bachelors and Masters graduates in Mechanical or Electrical Engineering as well as Physics. Representatives from our Microwave Tube Division would like to discuss these opportunities with you when they visit your campus.

Formal interviews will be held:
Friday, October 17th
Please make an appointment through your Placement Office.

If you miss us, you may still apply and learn more about Varian Associates by contacting our employment office at 611-0R Hansen Way, Palo Alto, California 94303. We are an equal opportunity employer.

We're Varian Associates
