**Announcements**

Students interested in learning more about summer jobs overseas should come to meet Yves Dufrane G (Course 15) and Bill Chambers '81 (Course 6-1) who will discuss their experiences. Descriptive literature and application blanks will be available. Application deadline is December 15, 1980. For more information contact the Office of Foreign Study, 5-108, on Mondays, November 24, from 4-5pm.

The National Space Club (NSC) will award a $5,000 scholarship for the academic year 1981-1982. The scholarship is in memory of Dr. Robert H. Goddard, America's rocket pioneer. The award is given to stimulate the interest of talented students in the opportunity to advance scientific knowledge through space research and exploration. The award winner will be introduced to the nation's leaders in science, government and industry. The winner is eligible to compete for a second year if the circumstances and his accomplishments warrant it.

**Why do outstanding systems programmers work in Bellevue, WA?**

Microsoft.

Microsoft develops the leading edge in microcomputer systems software. Our BASIC is world-renowned. Our new XENIX® OS, the microcomputer adaptation of the UNIX® OS, has computer companies and others chomping at the bit. We design state of the art system software. And, we need programmers to work on Data Base Systems, FORTRAN, BASIC, COBOL, Pascal, C, compilers, Graphics, Networks, and many other projects.

Our OEM customer base is a Who's Who of the hardware business (Apple, Radio Shack, Texas Instruments, Intel, Tektronix). As new hardware is developed (8086, 82000, 68000 microprocessor systems), Microsoft's programmers get their hands on the machines before they go into production. So your hardware suggestions and software innovations during R&D become part of the final product. Microsoft provides the best systems programming work environment:

- small company with lots of interaction and sharing of ideas and methods, where
- you can develop your full potential.
- the Pacific Northwest is a great environment too:
  - mountains, ocean, desert, rain forest, rivers and lakes all within easy reach.
  - major cultural, sports, social, and commercial activities in Seattle, just fifteen minutes away.
- we are looking for outstanding systems programmers—those with intelligence, drive, and a commitment to excellence. We want programmers who will advance the Standard in microcomputer software.
- more information about Microsoft is available at the Placement Center.
- We will be on campus Friday, November 21, or application may be made by resume, attention: Mr. Steve Ballmer, Assistant to the President.

XENIX is a trademark of Bell Laboratories. XENIX is a trademark of Microsoft.
