GAMIT reaches entire community

To the Editor:

"Moderation and discussion are slowly needed." The Tech, Dec. 7, 1980, when considering the topic of homosexuality. With this perspective, I want to present some of the activities of the GAMIT Group at MIT in the form of a moderate discussion.

GAMIT is a group of about 10 people who meet on a semi-regular basis. It is a relatively new group, but it has already had a significant impact on the MIT community. We have met with the support of other groups, such as the Gay and Lesbian History Group, and many other interested individuals.

Our meetings have focused on a variety of issues, including issues related to gay and lesbian rights, the history of the gay rights movement, and the role of the media in shaping our understanding of these issues. We have also had discussions about the role of the media in shaping our understanding of these issues.

We believe that it is important to have open, honest, and respectful discussions about these issues. We hope that our meetings will help to promote a better understanding of these issues and encourage others to join us in our efforts to promote a better understanding of these issues.

Sincerely,

Laura Hernandez

AVIATION

Are you ready to take on challenge and adventure??

If you seek to explore the limits of time and space, then Naval Aviation could be the means to launch your journey. By the time you qualify to wear Naval Aviator’s wings, you will have faced and conquered challenges that come only once in a lifetime for a few, very special people. The Navy has vacancies designed for those who believe themselves capable of the extraordinary. By seeking these, you gain an unlimited advancement opportunity and virtually all the benefits of Naval Aviator training.

- Starting salary to $16,800, increases to $38,000 in 4 years
- Free medical, dental care
- Opportunity for travel
- Guaranteed flight training (Sophomore-Senior Years)

If you can meet our high standards and your vision is correctable to 20/20, please ask your Placement Officer to set up an interview with a Navy representative when they visit the campus on:

WEDNESDAY, FEBRUARY 4, 1981

or contact your Navy representative at (817) 233-6216, Collect, or send resume to:

RESUME OF A PROSPECTIVE EMPLOYER

APPLICANT: Standard Oil of California

ADDRESS: 325 Bush Street
San Francisco, California 94041

Attn: Coordinator of Professional Employment

OBJECTIVE: Hire the best minds we can find, give them room to breathe, and see where they take us.

A FEW HIGHLIGHTS FROM OUR 20 YEARS OF EXPERIENCE:

1959. First time the modern hydrocracking processes, developed by Social researchers, was commercialized, providing an economic response to fuel oil demands for the next 20 years.

1967. Social researchers came up with a naphtha reforming process called benzolification, which increases refinery capacity to produce unleaded gasoline.

1978. With construction and installation directed by Social engineers, the largest offshore rig in history was placed in the turbid North Atlantic. The central platform is 5 feet above the height of the Great Pyramid, and the largest man-made object ever moved.

1981. We don't know what the breakthroughs will be this year, but we've committed $2 billion to making sure there are some.

ACTIVITIES: Earth sciences, engineering, computer sciences, alternate energy research, and more.
